

A powerful combination

Advancing materials characterization from particle to performance

November 4, 2025 | 8:30 AM - 4:30 PM
Houston, TX.

Agenda

Time	Subject
8:30 - 9:00	Registration
9:00 - 9:05	Introduction
9:05 - 9:50	Session 1 - part 1. - Particle size, stability, concentration, and shape - MasterSizer, SediGraph, Zetasizer, NTA, SAS, Empyrean, Morphologi
9:50 - 10:10	Demo & Break
10:10 - 10:55	Session 1 - part 2. - Particle size, stability, concentration, and shape - MasterSizer, SediGraph, Zetasizer, NTA, SAS, Empyrean, Morphologi
10:55 - 11:15	Demo & Break
11:15 - 12:00	Session 2. - Powder flow, density and porosity - FT4, AccuPyc, GeoPyc
12:00 - 1:30	Demo & Lunch
1:30 - 2:15	Session 3. - Porosimetry, surface area, and structure - AutoPore, AccuPore, TriStar, ASAP, 3Flex, Gemini, Empyrean, Aeris
2:15 - 2:35	Remote Demo
2:35 - 3:20	Session 4. - Activity - AutoChem, ASAP 2020 Chemi, 3Flex Chemi, BTA, FR and ICCS
3:20 - 3:30	Break
3:30 - 4:15	Session 5. - Elemental composition - Epsilon, Revontium, Zetium, SciAps
4:15 - 4:30	Demos
4:30	Wrap up
