## Booth Information and Exhibit Hall

Exhibit Hall booths are delineated by pipe and drape. The back wall is approximately 10 feet wide and each booth extends out into the floor with a half drape of 8 feet. Booth displays and activities may extend out into the floor approximately 10 feet, making each booth space approximately $10 \times 10$. Exceptions to this size are the corner booths, which include added space in the back.

Outside the Exhibit hall, draped tables are set up in the main hotel hallways with variable space.

Very robust wifi is provided throughout the building from our Diamond Sponsor, GCI. Booths and tables come with a 6 ft draped table, 2 chairs and electrical power. Additional furniture and supplies can be arranged through our service contractor, Alaska Event Services.
